

ATTRACTIVE NEW STORE IS OPENED SATURDAY MORNING

Mineos Under Selling Store Opens Mayville Branch Saturday Morning With Many Bargains Offered—Big Stock Here.

The Maysville branch of the Mineos Under Selling Store will be opened in the Barkley building in West Second street Saturday morning at 9 o'clock with a complete line of the newest of merchandise in all department store lines.

The store is under the management of Mr. A. A. Schnier, an experienced department store man, and Mr. Frank O. Barkley will manage the shoe department of the store. Mr. Barkley needs no introduction to Maysville shoppers. For years he has been prominently identified with the shoe business in this city and is recognized as one of the best shoe salesmen in this section. Mr. Barkley's shoe department is quite complete.

The new store is one of a chain of stores operated in Ohio Valley cities and because of the chain organization the firm's buying power is great. They are giving the public the advantage of their ability to buy in quantities and a glance at their prices in the large advertisement in today's Ledger will convince all that they are offering some rare bargains for opening day.

The Barkley building has been extensively improved to meet the needs of the new store. The well executed improvements are the work of Contractor George Fischer and his men.

When a farmer of this or adjoining counties makes a deposit in the Bank of Maysville, he knows he has left his money in safe hands and with his friends. A person could not make a greater mistake than to keep his money at home. If you have any that you want to save, deposit it in the savings department of the Bank of Maysville, where it will always be safe and draw interest.

WARRANT CHARGES MAN WITH DESERTING FAMILY. A warrant charging Alex Gill, resident of the Sixth ward, with deserting his family was issued in Police Court Friday morning upon complaint of his wife. It is charged that Gill deserted his family Friday morning leaving Maysville on a freight train.

Mrs. Edward Esham, formerly of this city, died Thursday evening at the home of her son-in-law, Mr. C. D. Willett, at Lexington. The body will be brought to Maysville Saturday morning and will be buried by the side of her late husband in the Maysville cemetery.

County Judge H. P. Purnell is able to be at his office after being housed a few days on account of illness.

CHAMBLIN CONFESSES AS HE GOES TO ELECTRIC CHAIR

Portsmouth Murderer Electrocuted at Midnight, Makes Clean Breast of Murders Before the Fatal Shock.

Columbus, Ohio, March 24. — Roy Chamblin of Portsmouth was put to death at the Ohio Penitentiary shortly after midnight this morning for the murders of John W. Newman and Miss Louise Doyle, near Portsmouth, last October 21, Chamblin was officially pronounced dead at 12:09 a. m. He died calmly, a faint smile being noticeable as he took his seat in the death chair.

A few minutes before he was taken from the death annex to the chair Chamblin made a confession of the crime, Chaplain Reed of the prison announced after the execution. Repudiating statements that he had fired the shots after some one had thrown rocks at him from the shack where the bodies were found, Chamblin, according to the chaplain, declared that he had held up Newman and Miss Doyle along the road near the house, took their valuables and after compelling them to enter the house shot them because he feared he had been identified.

In contrast with his attitude during the day, Chamblin was calm at the last. He walked from the annex to the death chamber without assistance and at no time appeared nervous. On his way to the chair he prayed quietly, and after he was seated attempted to make a statement, but faltered and stopped before his words could be understood.

One application of the high voltage current was applied, and three minutes after an attendant had thrown the switch W. C. Whitman, prison physician, pronounced Chamblin dead.

AUCTION SALES.

Having decided to remain in Maysville until May 1, I am prepared to cry sales of farm lands, farming implements, household goods, live stock, or in fact anything you may have to sell. Terms—reasonable. Satisfaction guaranteed. Call or write me at Central Hotel, Maysville, Ky., day or night.

DAN L. HARDY, Auctioneer.

ATTENDS OPENING OF RADIO BROADCASTING STATION

Mr. Edward M. Smith, of the Maysville Gas Company, was in Cincinnati Thursday where on Thursday evening he attended the formal opening of the powerful Radio Broadcasting station at that place. The first big program was broadcasted from the Cincinnati station Thursday evening. Radio receiving sets are getting very numerous in this section.

Mr. and Mrs. James Adair and son of Xenia, Ohio, are the guest of Mr. and Mrs. R. N. Adair of the Kirk.

ELECTROCUTED WAS SON OF MAYSVILLIAN AT KANSAS FACTORY

Details of the Sudden Death of E. W. Harding, Son of Mr. Joseph Harding, of this City, Told By Kansas Newspaper.

The following from an Iola, Kansas, newspaper tells the details of the sudden death of Mr. E. W. Harding, son of Mr. Joseph Harding, of this city, which occurred at a cement works at Mildred, Kansas, a few weeks ago:

While "riding the wires" in process of doing some repair work at the Mildred cement plant yesterday evening about 6 o'clock, an employee at the plant, Mr. E. W. Harding, twenty-three years old, touched a part of the wires where the insulation was imperfect and 440 volts shot through his body. The electrocution was instant and all medical effort to restore him to consciousness failed.

Roy Sleeper, coroner, Sheriff Sutherland and County Attorney Brown went to Mildred last night to investigate the affair and the story they bring back is as follows:

Harding, along with V. L. Smith and C. E. Moore, both of Iola, and a couple of other workmen, were engaged in attaching some chain "falls" to the roof of the building in order to do some subsequent heavy lifting. The men had been working outside and all of their clothes were wet. Smith and Moore were on the roof and Harding had started to "ride" a couple of heavily insulated wires to put himself in position to do the work required of him. At one spot the wires had once been repaired and the insulation replaced with wrappings of wire tape. Harding apparently touched both of these places with his hands at the same instant and the 440 volts passed through his body. His lifeless form was discovered hanging limp over the wire a few minutes later. Both hands were badly burned and a bloodshot streak running up one arm, across his chest and down the other arm told the tale. A physician was immediately summoned but his efforts were futile.

Roy Sleeper, coroner, was sent for but after a short investigation decided that no inquest was necessary as the tragedy was quite patently due to unavoidable accident and nothing else. The body was given into the care of Mr. Van Buskirk, the Mildred undertaker.

Mr. Harding leaves behind him a brother who was working with him in Mildred, his wife and his father. His wife, Mrs. Edna Harding is only twenty years old and comes from Oklahoma. His father lives in Kentucky, which is the original home of the Hardings, and is now on his way to Mildred. Several years ago Mr. E. W. Harding and his family lived in Iola out on South Ohio street. Mr. Harding Senior worked in the cement plant here and is well remembered by a number of Iola people, all of whom are struck with the deepest grief at the tragic and untimely end which has come to the young Mildred man.

FIRST MORTGAGES.

We offer First Mortgage investments of the highest character. In every loan offered, the soundness of value, title to property and standing of the borrower have been thoroughly investigated and approved by the officers and attorneys of this bank before being accepted as our own investments. These investments are offered to the public with our highest recommendation. They bear interest at the rate of six per cent. This rate, considering the high type and large margin of security in these loans, is unusually attractive.

Investment in these mortgage loans helps finance the community, and the security is right here at home where you can make personal investigation if you want to.

BANK OF MAYSVILLE, Maysville, Ky.

NOTICE TO WATER CONSUMERS.

All semi-annual water rents will be due April 1st, 1922, and payable in advance. A discount of 3% will be allowed for prompt payment. Last discount day April 15th, 1922. Your early attention will be appreciated.

Yours respectfully, 22M-4d MAYSVILLE WATER COMPANY, M. Y. FIELDHOUSE, Manager.

Room 11 State National Bank Building Second and Court Streets. Tel. 73.

VISUAL EDUCATION COURSE RESUMED AT HIGH SCHOOL.

The visual education course has been resumed at the Maysville High School and on Friday afternoon an educational film entitled "The Scouting of Washington," furnished by the State University, was shown. This film will also be shown in the auditorium next week. The local school authorities are always pleased to have parents see these pictures.

LOCBL BALL CLUB LEADERS MEETING WITH MUCH SUCCESS

Maysville Club Officials Having No Trouble To Finance Organization—Raise \$1200 In First Day Out.

Maysville is a strong supporter of baseball and especially league ball, this is proven by the phenomenal success with which the officers of the local Bluegrass league club met on Thursday, their first day of canvassing for finances to make baseball possible in Maysville. In one day out the local ball officials received contributions of \$1200 in cash.

It is estimated that it will require about two thousand dollars to put the grounds at the old race track in first class condition and the club officers think there will be no trouble in the club meeting its own expenses after the grounds have been put in condition.

With about one more day's canvassing, the officials hope to have enough funds to assure a first class diamond and then work will be started to put it in shape.

In doing business with a bank the customer not only likes polite attention, but also wants the greatest protection he can get. The Bank of Maysville fills the bill in both of these respects. Its officers and employees are accommodating, attentive and polite, while its capital, surplus and assets are the largest of any bank in this section of the country.

Special Trimmed Hats. Mrs. S. Arn. 24Mar-tf

The Women Know This is the Place That Gives Their Garments Cleanly Grown.

The women know that last year's gowns and suits are needed to be worn upon those in-between occasions. The women know the art of saving money is a science of getting their money's worth of wear from their wardrobes. And we help a lot.

COMPLETE MOONSHINE OUTFIT DISCOVERED BY POLICE

Henry Moore, Colored, Arrested When Moonshine Outfit Is Discovered in His Home in Union Street Thursday Midnight.

Smelling an odor which he took for whisky mash, Officer Harry Stewart, shortly after midnight Thursday sent in an alarm for assistance and Officers Simpson and Boley came to his rescue. The policemen, properly armed with warrants, entered the home of Henry Moore, colored, at the foot of Union street, and discovered one of the best moonshine stills yet taken in Mason county.

The outfit was found in the attic of the colored man's home. It is all copper and has a perfect copper coil. In the living room of the house a half-barrel of mash was found. The mash was just about ready to be used in the still and Moore was probably making ready for a "run" of liquor.

Police have had suspicions about Moore for some time but they have never before had good reason to obtain a search warrant. Moore will be given a hearing by Police Judge H. C. Curran and will probably be held for the grand jury which meets next Monday.

Mr. R. I. Cord, of Mt. Sterling, is the guest of Mr. and Mrs. R. M. Harrison, of Commerce street.

BITTER FIGHT ON BONUS BILL EXPECTED IN SENATE

House Passes Measure By Overwhelming Majority—Now Ready for Battle in the Senate Chamber.

Washington, March 24. — Passed by the House by a vote of 333 to 70, the soldiers' bonus bill was made ready to-day for the Senate, where a desperate fight is expected.

There were those who believed that the Senate Finance committee, to which the bill would be referred in the natural course, would make sharp changes in it. Some Administration officers were known to look to the Senate to pass a measure providing means for financing the bonus, but they were not prepared to predict whether the means would be taxes or the use of foreign bonds.

Party lines were effaced in the overwhelming vote of 242 Republicans, 90 Democrats and 1 Socialist supporting the bill, while 42 Republicans and 28 Democrats voted against it. Supporters of the measure packed the galleries and applauded vigorously.

COUNTRY CLUB TO OPEN ON APRIL FIRST.

The Edgefield County Club will be formally opened for the season on the first of April, it is announced. The club's golf grounds and tennis courts should be in perfect order this season. Plans are being made to have about two dances each week during the spring and summer season for the membership of the club.

TREATY TO PASS SENATE TODAY ALL LEADERS EXPECT

Ratification of Pacific Pact Expected This Afternoon—Sufficient Support to Assure Its Ratification.

Washington, March 24. — The Senate will ratify the four-power Pacific treaty today, barring a sudden reversal.

The lineup shows 65 votes for ratification and 23 against it. Three senators probably will not vote. Of the 65 voting for the treaty, 11 will be Democrats and 54 Republicans. Of the 23 against it, 24 will be Democrats and four Republicans.

The final vote will come on a resolution which states that "the Senate advises and consents" to ratification of the treaty "with the understanding that the preamble or the body of the treaty contains no commitments to the use of armed force, no alliance, no obligation to go to any defense."

AWNINGS.

Our Mr. T. M. Wise representing the Southern Tent & Awning Co., will be at our shop March 27 to April 1st. Any orders for awning will be solicited by Mr. Wise.

A call will be appreciated. 24Mar-tf JOHN J. KAIN.

'Squire William Archdeacon remains very ill with pneumonia.

New York Letter

by Lucy Jeanne Price

New York. -- It is an interesting pilgrimage that Lionel S. Reiss, young New York artist is starting upon, this month. He is going to visit and sketch the Ghettoes of all the world, preserving the types and traditions of each one. "In following with my knapsack, the wandering footsteps of the Jewish people," he said, "I shall visit almost every corner of the globe." In Rome, Florence, Padua are some of the earliest Ghettoes, but all of Europe, and parts of Africa and Asia will be included in the trip. Mr. Reiss, who passed his own boyhood in New York's own Ghetto, the lower East Side, has become known as an artist for his peculiarly powerful studies of the types of that district.

One of the interesting bits of New York "atmosphere" may be shattered and lost before many weeks. The Players are debating the matter of moving their clubhouse uptown to a district nearer the working places of our theatrical people than is the lovely and glorified spot facing Gramercy Park. Against those utilitarians who point out the difficulty in an actor's dropping down from the West Forties to spend an hour in the East Twenties, the older element in the club maintains that the abandonment of No. 16 Gramercy Park would desecrate hallowed memories of the founder of The Players, Edwin Booth, who bought the house in 1888 and presented it to the club, and whose statue looks constantly across the Park at his beloved institution.

The interest taken by the average human being in seeing things get done and having a part in the doing of them is rather aptly illustrated by the plan used by a local corporation in helping to finance its work. Some time ago, the Commonwealth Hotel Corporation, anxious to push its work faster issued what were called "gold notes." They were really just "promises to pay" backed by the company itself and were to be redeemable in cash or common stock. Some financiers told them it couldn't be done; that people wouldn't just lend money to a concern only just starting to construct its assets; that some with gambling tendencies might buy stock in such a netherprise, but notes paying seven per cent? Never. But they did. They took the issue

without any urging. The notes are being called in at the end of this month, but most of their holders are turning them into common stock in the corporation, due to the rapid progress made in construction of the hotel and the certainty of its being open in 1923.

Fifth avenue is not to be allowed ornate and gaudy brilliance of light. It is not Broadway and it must not try to rival it. So the courts have decided, and an order has been signed requiring the removal of illuminated signs from the fronts of its buildings as far uptown as 110th street—the northern boundary of Central Park. This is a city of zones, each zone with its own particular function and atmosphere and Fifth avenue may NOT encroach upon the atmosphere of late hours and embellishment.

One realizes the presence of Ohio Societies, and New England Societies, and every other sort of "native son" society, here in conglomerate New York. But the Society of North American Indians of New York City somehow has an unexpected and startling ring to it. However it is here and it is quite up in arms at present, over a man styling himself as Chief of the Ojibwa tribe of Kansas. They say there are no Ojibwas in Kansas and are demanding that he prove his identity or be exposed. That part of it is quite all right. I am perfectly willing to accept their statement, but it is such an intriguing thought that they are here at all, and that being here, they are still wrought up over tribal matters!

Have so many theatrical revivals turned our heads all the way back along our dramatic and literary history? After the encouragement we have had recently to believe that the motion pictures will do better and better things all the time, are we to be dropped into despair with a dull thud? It almost looks as though we might. For the latest announcement from the realms of the screen is that "Nellie, the Beautiful Cloak Model," "Bertha, the Sewing Machine Girl," and "Broadway after Dark" are to be produced on the film very shortly.

Messrs. Harold Morris and M. N. Davenport were business visitors at Maysville.

WASHINGTON LETTER.

Washington. -- The debates now in progress in the Senate mark the concluding chapters of one of the most momentous incidents in the history of the country. Preliminary votes indicate that all of the eight treaties which emanated from the armaments conference will be ratified by substantial majorities, but the debates have developed a determined opposition to some of them. There is given herewith a brief outline for each undertaking, in order that the reader may see for himself the scope of the treaties and judge of their influence on the future of the United States and of the world.

1. A treaty between the United States, the British Empire, France, Italy, and Japan, limiting naval armaments. The future capital ship tonnage of those countries shall be: United States, 525,000; British Empire, 525,000; Japan, 315,000; France, 175,000; and Italy, 175,000. No ship exceeding 35,000 tons shall be built. Aircraft carrier tonnage: United States, 135,000; British Empire, 135,000; Japan, 81,000; France, 60,000 and Italy, 50,000. No aircraft carrier exceeding 27,000 tons shall be built. The treaty specifies the ships to be scrapped by each power, the method of scrapping, and the size and number of guns of those retained. The treaty is to remain in force until December 31, 1936, and shall continue in force unless one of the parties gives two years' notice of its termination.

2. A treaty between the United States, the British Empire, France, Italy, and Japan limiting the use of submarines and poison gas in war.

3. A treaty between the United States, the British Empire, France, and Japan relating to their insular possessions in the Pacific. This is the so-called "Four Power Pact." It provides that if a controversy arises between any of the parties, the others shall be called in for a joint conference. If the Pacific rights of either are threatened by any other power the four countries shall consider what joint action they may take to meet the emergency. The treaty is to remain in force for ten years.

4. A declaration accompanying the Four Power Treaty to the effect that it shall include the mandated islands in the Pacific, but shall not be deemed an assent on the part of the United States to those mandates; also excluding domestic questions from the effect of the treaty.

5. A treaty supplemental to the Four Power Treaty, excluding the main islands of the Japanese Empire from its influence.

6. A treaty between the United States, Belgium, the British Empire, China, France, Italy, Japan, The Netherlands, and Portugal, relating to principles and policies to be followed in matters concerning China. The treaty reaffirms the Open Door policy in China. It respects the sovereignty and territorial integrity of China, gives that country the fullest opportunity to develop, pledges equal opportunity for the commerce of all nations in China, and agrees not to take advantage of conditions in China in order to seek special rights. The treaty gives details as to how those principles shall be observed.

7. A treaty between the United States, Belgium, the British Empire, China, France, Italy, Japan, The Netherlands, and Portugal, undertaking to increase the revenues of China by making effective a 5 per cent. ad valorem customs duty.

8. A treaty between the United States and Japan preserving American rights in the island of Yap including cable privileges. Ratified by the Senate on March 1st by a vote of 67 to 22.

TRIALS SHOW MORE FARMERS WOULD PROFIT BY SILO USE.

Results of beef feeding trials conducted in various parts of the state show that the silo could be added as a profitable piece of equipment to many Kentucky stock farms that do not have one at the present time, beef cattle specialists at the College of Agriculture say. The state now has about 10,000 silos, this number being sufficient to take care of only about five per cent. of the state's corn crop when it is made into silage, it is said. The chief advantages of a silo are that it provides economical storage, preserves the corn or forage in a succulent and palatable condition and permits the complete utilization of the crop for feed. Regardless of whether or not it is made of hollow tile, creosoted wooden staves, cement staves or

monolithic concrete, the sil must have certain features in order to produce sweet silage of a desirable kind, J. B. Kelley, head of the college farm engineering section has pointed out.

The walls should be amply reinforced to resist the bursting pressure of the silage. The greatest amount of re-enforcing is needed at the bottom and the least at the top.

In order to permit even settling of the silage to eliminate air pockets, it is essential that the walls of the silo be smooth and free from rough spots. When such air pockets are formed, they usually result in spoiled silage.

In order to produce good silage it is necessary that the air be excluded and the water retained. For this reason it is essential that the walls be tight.

Length of the feeding season and the number of cattle to be fed will determine the size of the silo. Since it is necessary to feed from one and one-half to two inches of silage daily off the top to keep it sweet, the diameter of the silo will vary with the number of stock to be fed.

FARM AND HOME NEWS FROM OVER KENTUCKY.

Todd County farmers who are interested in the improvement of their home orchards will have an opportunity to observe different methods in ten orchards the owners of which will cooperate with the College of Agriculture extension division in following recommended methods, according to County Agent I. C. Graddy. The work, which is said to mark a new interest in orcharding, is the result of one demonstration conducted last year by G. W. Rudd, it is reported.

Work in standardizing the farm flocks of Harlan county with one breed of poultry is expected to go forward rapidly this year, County Agent Robert T. Harrison has reported. Orders already have been received for a total of 55 settings of pure-bred hatchery eggs to be used in the movement.

Following a series of four night meetings recently held in the county in the interests of a hog cholera and cattle tuberculosis eradication campaign, Washington county farmers are showing increased interest in stamping out these two diseases which annually cause heavy losses in their herds, Assistant County Agent H. R. Cottrell has reported.

In their efforts to improve the methods of cattle feeding being followed on their farms, Nelson county farmers living in the vicinity of Boston, accompanied by Wayland Rhoads, beef cattle extension specialist from the College of Agriculture recently took an inspection tour to the feed lots of eight different farmers in the community. Records being kept on the different steer feeding practices will be discussed at a later meeting, according to County Agent C. L. Hill.

Records being kept on their poultry

flocks by 50 Davies county farm women who are cooperating with County Agent J. W. Whitehouse and the College of Agriculture extension division are helping many farmers in that section of the state solve their problems of poultry feeding and management, it is reported.

RECORDS SHOW ACTIVITY OF THE 66TH CONGRESS

Huge Number of Bills Offered Result in Small Number of Laws Enacted.

Washington. -- Analysis of the proceedings of the Sixty-sixth Congress discloses the fact that during its session 16,239 public bills were introduced in the house and more than 5,000 in the senate. In addition, 481 joint resolutions were introduced. As a result, 470 new laws became part of the national statutes, not including 124 private bills which were enacted. The facts answer the criticism sometimes aimed at the press by Congress that it fails adequately to report the activities of the national legislature and certainly provide food for thought for those critics of Congress who say it is not sufficiently active.

Many members of the national legislature are alive to waste of time and effort involved in the mere presentation of so many bills, few of which can ever receive consideration or be made into law. The physical limitations of hours in a day and days in a session should, they contend, be considered and some means found to make it possible to decrease the large number of bills presented. Large as the number above quoted is, it is less than that of some previous years, which, as the country is growing, is in itself an indication that the vast majority of bills offered are unnecessary and an obstruction to vital legislation.

TAKE IT IN TIME Just as Scores of Maysville People Have.

Waiting doesn't pay. If you neglect kidney backache, urinary troubles often follow. Doan's Kidney Pills are for kidney backache, and for all other kidney ills. Ask your neighbor.

Maysville citizens endorse them. Ben P. Fleming, country Constable, 228 Limestone street, Maysville, says: "I have used Doan's Kidney Pills off and on for several years when I have needed them. I always get Doan's at Wood & Son's drug store. I have been greatly benefited by them. At times my kidneys get out of order and I suffer with a dull constant ache through the small of my back and the kidney secretions are irregular in passage. A box or so of Doan's have never failed to relieve the trouble in a short time."

The above statement was given November 14, 1916, and on November 22, 1920, Mr. Fleming added: "I am glad to restate the statement I gave for publication some years ago as the cure Doan's Kidney Pills made for me is still permanent. I confirm my former statement in every detail as it was all true."

Price 60c. at all dealers. Don't simply ask for a kidney remedy -- get Doan's Kidney Pills -- the same that Mr. Fleming had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Miss Onie Bean has returned home after a visit with her sister, Mrs. J. L. McNutt, at Tollesboro.

It is better to lend a hand than to give advice.

"HOW ARE YOU?" YOUR FRIENDS ASK

They Hope That You Are Well and Strong—Poor Health Is Unnatural.

All your friends greet you with "How do you do?" or "How are you?" They want you to be in good health. Poor health means unhappiness and trouble and pain to you and your friends and is not what Nature planned for human beings. But through overwork or improper living people do become run-down and sickly. If you feel that way and are weak and nervous and do not sleep well and have headaches, go get some Gude's Pepto-Mangan and take it with your meals for a few weeks and you will get your health and strength back again and be as well as your healthy friends. You can buy it in liquid or tablet form Ask for Gude's Pepto-Mangan. — Advertisement.

LEWIS COUNTY ROAD TO BE IMPROVED BY COUNTY AND STATE

Through Efforts of Lewis County's Live-Wire Representative, That County Will Get Some Splendid Roads.

The Vanceburg Sun says: Fiscal court with all members present, met in special session Monday at 1 o'clock at which time a good many of our representative citizens from various sections of the county were present. The occasion for the meeting was to hear a proposition submitted by the State Road Department for the construction of part and the reconstruction of part of the road leading from Vanceburg to the Mason county line via Valley, Ribolt and Tollesboro. Hon. J. L. Trumbo represented the State Road Department and read a letter from the department wherein they agree to go 50-50 with the county on the construction of the 10 miles between Tollesboro and Valley. For our expense money the state will cancel same out of the \$40,200 owing the county by the state on the \$150,000 good roads bonds issued some years ago, provided the county would put in condition the seven miles from here to Valley and the three miles from Tollesboro to Mason county line, under the specifications furnished by the state, so that state could take it over for future maintenance, making in all 20 miles.

It was estimated that the restoration of the 10 miles would cost 10 or 12 thousand dollars and it was proposed that the citizens raise half of this cost. Chas. Rudder spoke up and agreed to stand for \$5,000 of it.

Opinions of the proposition were called for by Judge Stone who presided and a number availed themselves of the opportunity to speak for better roads and our great need of them. Several asked questions.

On motion of Lykins, seconded by Cunningham, the proposition was accepted six to two. Court then adjourned.

FIFTY YEARS AGO

a woman in Lynn, Mass., was steeping herbs on her kitchen stove according to a recipe of her own, to furnish medicine for the women of the neighborhood. Today, a stone's throw from the little house where she lived, there is a four-story laboratory, making the same medicine for the women of the world. During the last year almost 500 tons of carefully selected herbs were used in the manufacture of Lydia E. Pinkham's Vegetable Compound.

A woman's medicine for woman's ailments. Have you tried it?

MAYSVILLE TO HAVE NEW RESTAURANT AND POOL ROOM

Messrs. A. G. Watson, Adele Kenton and Charles Rhomiller have leased the old Farmers & Traders Bank building at the corner of Market and Second streets and propose to operate there a first class restaurant and pool room. The main floor will be made one of the most attractive eating houses in the city and the second floor will be pool rooms.
